### WHAT WE OFFER:

*(Please use between 200 and 800 characters)*

#### SPRAY-AWAY:

Stationary system, addable to existing panels of any size  
Water consumption per cleaningcycle and KWp 1.5 – 2 Liters

Due to modular construction any width of panel can be cleaned

Fully automated system

Surplus in output 7% (measured on a refernce object in southern Spain)

Our System is registered at German and European patent authorities

The SPRAY-AWAY cleaning systems clean panels

Automatically or on request the solar panels are cleaned without chemical additives, with and without a brush, via a patented system. After a sandstorm the entire photovoltaic park can be cleaned within 3 minutes.

Regular cleaning is preferably carried out a night to protect the panels from extreme temperatur changes.

We help you to maintain the designed and desired performance of your solar panels permanently.

We design the equipment for your plant and show you the economic advantage you can gain by using SPRAY-AWAY cleaning system.

Please contact us and arrange an appointment.

- professional cleaning at low cost
- no need of manual cleaning, independend of weatherconditions
- permanently optimized output
- adjustable frequence of cleaningcycles
- sustainable through abdication of detergents

### WHAT WE ARE LOOKING FOR:

*(Please use between 200 and 800 characters)*

Partner who wants to buy and sell our know how and products.
