

## Make tomorrow's international contacts today

### One-on-One concept:

The One-on-One concept offers you the opportunity to establish contacts with international microsystems companies and research institutes.

More than 150 companies from 20 countries will attend the one-on-one event. These companies represent the entire value chain from material and component suppliers, subsystem and module developers to system integrators.

On March 8, 2006 you will meet the companies and institutes that you have selected or that have selected you.

Bayern Innovativ Ltd. will prepare a personal appointment schedule for each participant with up to 12 One-on-One meetings each of 30 minute duration.

At the event you will receive a digital catalogue with all company profiles and contact persons.

Make use of this opportunity to establish new contacts at an international forum!

### Internet:

The central information and interaction platform will be online. Here you will find:

- complete information about the forum
- a list of the currently registered companies
- a list of the partner organisations supporting this platform in their countries.

[www.baikem.de/microsystems2006](http://www.baikem.de/microsystems2006)

## How to take part

### Application:

Complete the application form and questionnaire at [www.baikem.de/microsystems2006](http://www.baikem.de/microsystems2006) or return the questionnaire by fax.

### Online password:

Upon receipt of your application you will be provided access to your protected company account and profile.

**Application and return of the questionnaire by February 3, 2006.**

### Online catalogue:

Access to the online catalogue will be possible from February 2006 at [www.baikem.de/microsystems2006](http://www.baikem.de/microsystems2006). Using the password every participant will be able to view the company profiles of all firms taking part. Special search routines help you to select company profiles that meet your specific interests.

### Online matching:

From February 2006 onwards you can select up to 10 companies from the online catalogue that you are interested in meeting. At the same time you can see those companies who have requested a meeting with you.

**Online-Matching by February 20, 2006**

### Online appointment schedule:

Using your personal password you will be able to view your personal appointment schedule online, from March 1, 2006, onwards.

**Online appointment schedule available from March 1, 2006 onwards**

## General Information

### Organisation

Bayern Innovativ GmbH  
Gewerbemuseumsplatz 2  
90403 Nuremberg, Germany  
Phone: +49 (0)911 / 20671-150  
Fax: +49 (0)911 / 20671-766  
Email: [lison@bayern-innovativ.de](mailto:lison@bayern-innovativ.de)  
[www.bayern-innovativ.de](http://www.bayern-innovativ.de)

### Location

Arabella Sheraton Bogenhausen Hotel  
Arabellastraße 5, 81925 Munich, Germany

### Conference

**Language: English**

### Congress Trends in Microsystems

**Tuesday, March 7 2006  
10.00 – 17.30**

### Evening Programme

**Tuesday, March 7 2006  
18.30 – 21.00**

### One-on-One

**Wednesday, March 8 2006  
9.00 – 17.30**

### Registration

Online at [www.baikem.de/microsystems2006](http://www.baikem.de/microsystems2006) or by fax before February 3, 2006 at the latest.

### Attendance Fee

Fees include conference proceedings, lunch, refreshments, evening programme and get together. Charges do not include VAT.

	Member from Industry		Member from Institutes	
	1st participant	any further participant	1st participant	any further participant
<b>One-on-One only</b>	€ 380,-	€ 180,-	€ 200,-	€ 180,-
<b>Congress only</b>	€ 310,-	€ 310,-	€ 190,-	€ 190,-
<b>One-on-One and Congress*</b>	€ 480,-	€ 340,-	€ 270,-	€ 255,-

\* Please note the more than 30% price reduction offered for two day registration.

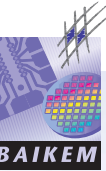

### Participation conditions

Upon receipt of your application you will receive an invoice as well as a confirmation of your attendance. Cancellations received up till February 3, 2006 are exempt from charges. For later cancellations and for non-attendance, the full amount will be charged.

Munich, Germany  
March 8, 2006

Prof. Dr. Josef Nassauer  
Chief Executive  
Bayern Innovativ GmbH

Sean Neylon  
Chairman of NEXUS-European  
Microsystems Network

Microsystems such as micro electro-mechanical systems (MEMS) contribute essentially to miniaturisation, performance and the market success of innovative products in a wide range of branches. These range from automotives to telecommunications, from life sciences and medical engineering to automation and manufacturing.

These innovations result from the integration of micro-fabrication, classical semiconductor technology, mechanics, micro fluidics, material sciences, optics, nano-technology and software for smart systems.

Therefore cooperations, both technology driven and customer oriented, are essential factors required to stay ahead with cutting edge solutions. As a consequence of the world-wide dynamics in technologies and markets, companies are always striving for the best and most suitable partners from science and industry.

With this in mind Bayern Innovativ GmbH, as project coordinator of BAIKEM developed the concept of international One-on-One cooperation platforms with professionally organised business meetings. International recognition of this regular matching event that was launched in 2001, has always been highly positive with continuous growth. For example in 2004 more than 650 meetings were arranged for approximately 150 companies from 13 countries. Over 50 percent of the meetings were rated by the participants as successful with regard to future cooperations.

Bayern Innovativ will arrange the BAIKEM One-on-One event in 2006 for the fourth time. This cooperation event will once again be held jointly with NEXUS, the European Microsystems Network and with the support of the Bavarian Ministry for Economic Affairs, Infrastructure, Transport and Technology.

For the first time the One-on-One platform will be preceded by a congress focusing on trends in microsystems.

More than 30 partner organisations will support the acquisition of participants with a focus on Europe and Asia.

We look forward to welcoming you in Munich.
